

\* Pull from github (if hotspot will be available, easier to do after you move to location, otherwise have to plug in computer and into a monitor)

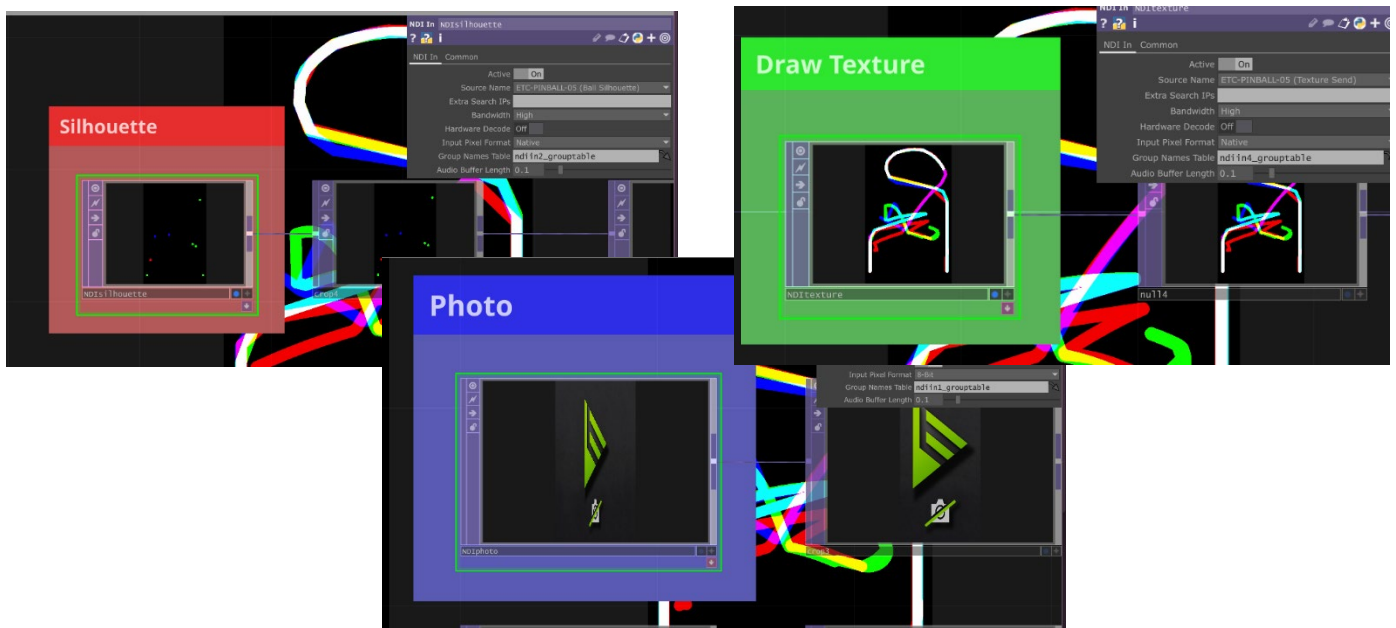

- o Github desktop – Pull Changes at top

- Plug everything in
  - o Screen
  - o Computer
  - o Printer (power and usb)
  - o Mouse
  - o Keyboard
  - o Camera
- Log in
  - o etcdemo123
- open unity hub and open
- open TD file pixely fun - FINLEY FEST.toe (in main github repo)
- Back to unity, navigate to pic (below right), switch to ETC-PINBALL-02 (TouchDesigner)

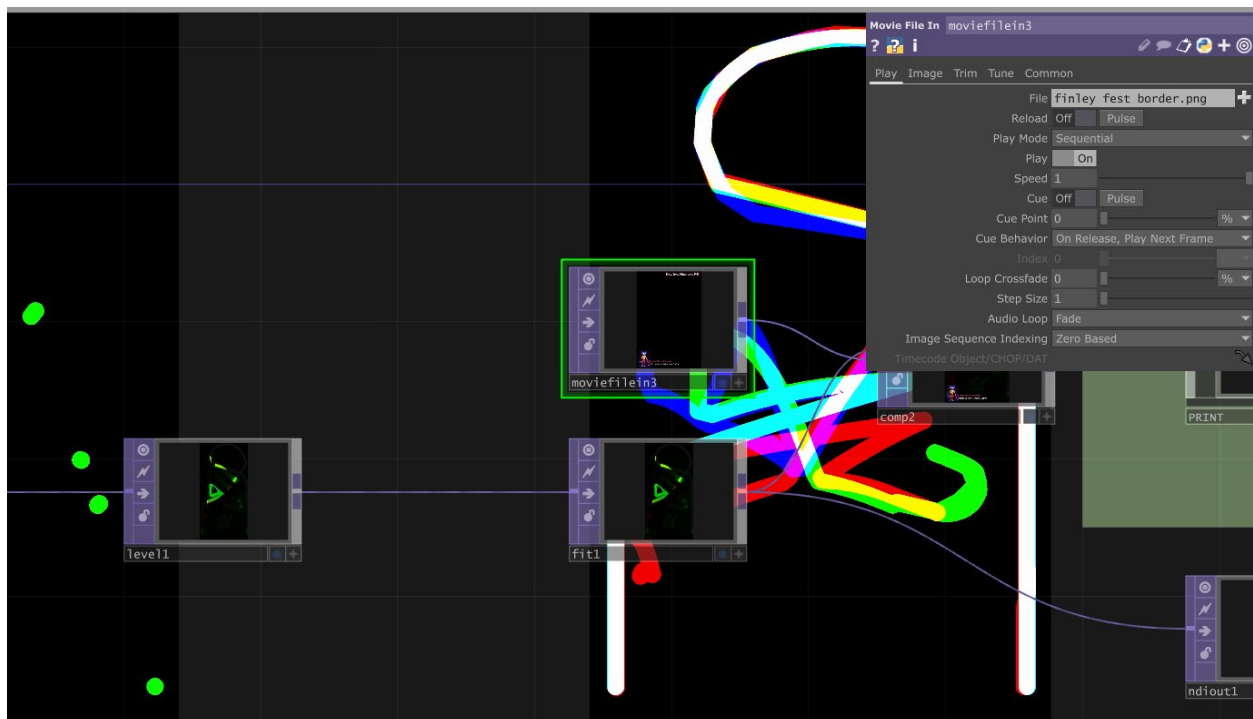

- Play scene, go through screens, launch a few balls and switch back to TD

- Nav to TD
- Put all windows to as follows, but 02 instead of 05

- Ensure that this photo is selected for moviefilein3 (towards right, before print tile)
  - o If not, double click file name and open boarder FINLEY FEST.png

OKAY THAT IS ALL I CAN THINK OF AND IM RUNNING OUT OF TIME HUGS AND KISSES DON'T PANIC  
EVERYTHING WILL WORK IF IM MISSING SOMETHING IT'LL BE TWO BUTTON CLICKS THE GAME WILL  
PLAY FINE OTHERWISE

I REPEAT DON'T PANIC IF ITS NOT WORKING ITS BECAUSE I FORGOT TO SAY IT OR EXPLAINED POORLY
